Elsevier

Subject Index Volume 27

A detailed Subject Index of the Special Issue on The Avoidance of Electrostatic Hazards in the Petroleum Industry (Vol. 27, Nos. 1&2) can be found on pages 195–200.

Antistatic properties, 259

Charge decay, 259
Composite materials, 259
Corona, 249
Corona discharges, 223, 283

Dielectrics, 211
Discharges, 211, 267

Electric filter, 249
Electrostatic motor, 223

Fibres, 237
Field model, 211
Finite element analysis, 259

Incendivity, 267
Ignition, 211
Insulating plate, 201
Ion drift, 283
Ionizer, 249

Laser Doppler, 237

Particles, 237, 249
Point-plane electrodes, 283

Space charge, 201
Space charge distributions, 283
Sparks, 267
Surface charge, 267
